Hiring Manager
ACME Corp

Dear Hiring Manager,

I am writing to express my interest in the open engineering position at ACME Corp. With over six years of experience in cloud infrastructure,

In my current role as Senior Cloud Engineer at CloudScale GmbH, I have been responsible for the architecture and day-to-day management of our cloud environment.

A key highlight of my career has been building automation and compliance tooling. I developed custom AWS Config rules and Lambda-based solutions to ensure our infrastructure remains secure and compliant.

Beyond technical skills, I enjoy mentoring junior team members and collaborating across engineering teams to improve infrastructure practices and efficiency.

I am excited about the opportunity to bring my experience to ACME Corp and contribute to your platform and infrastructure goals. I would be happy to discuss how my skills align with your needs.

Thank you for your consideration.

Sincerely,
Alex Rahman
